RESEARCH STUDY SEEKING PARTICIPANTS: Monitoring Pressure Relief Behaviors and Wheelchair Use of Individuals with SCI

Who is Eligible?
SCI patients between the ages of 20-60

What is being studied?
We are studying the relationship between pressure relief behaviors and the development of pressure ulcers. We also hope to learn more about how wheelchairs, wheelchair cushions, and mobility assistive devices are used in everyday life.

What is involved and am I compensated?
We will measure your movement in the wheelchair and ask questions. You will receive up to $50 for participating.

How to learn more?
Please call Susan Perlman at 404-894-2861 or email her at: susan.perlman@coa.gatech.edu
